

VALE ROYAL ABBEY

"Golf is meant to be both a challenge and to be fun.

At Vale Royal we have created a mixture of both by including a number of testing long holes with a balance of short and interesting par 4 holes.

All of these are characterised by carefully positioned water features or tempting bunkers and the golf course is sure to test players of all types of ability and standard.

The course has also been designed to complement the beautiful surroundings of Vale Royal Abbey and whilst in terms of specification, design and workmanship it will challenge any championship venue and is intended to be a strategic test, above all it is designed to be enjoyed."

Simon Gidman – Golf Course Architect
